

TCA Open Screen - Fall 2022 Call for Submissions

About:

TCA's Open Screen is about sharing digital media projects with each other in a supportive public forum. All genres and styles are welcome, including works in progress. Project runtimes are kept short so we are able to feature all artists and makers who would like to participate. We look forward to seeing your creations for the screen!

All forms of digital media projects in all genres are welcome; short films, projection art, animation projects, music videos. Works in progress are also welcome. We welcome creative work from organizations; promotional material will not be accepted.

Length of work: Short projects, 1 min - 15 mins in length.
